

Domestic Travel Policy

CLASSIFICATION:	Internal
ISSUE DATE:	27.07.2023
EFFECTIVE FROM:	27.07.2023
POLICY NUMBER:	ARV EOP_DTP 003 270723

Prepared by:
Administration and Facility Management
Arvind Limited, Naroda Road, Ahmedabad

This document is confidential and is intended for internal circulation only.

Introduction:

We at Arvind recognize the significance of travel as a crucial component of our business operations. As a large conglomerate, efficiently managing our business and official travel is of utmost importance. It is imperative for us to prioritize the implementation of a highly efficient and automated travel and expense management tool that eliminates manual interventions and dependencies, providing our employees with a seamless experience. Furthermore, we seek a tool that offers a comprehensive dashboard to monitor travel activities and optimize costs. With this objective in mind, we are proud to announce our partnership with Make My Trip's (MMT) "myBiz," the pioneers in India's online travel industry. "myBiz" serves as a one-stop solution, providing a comprehensive travel solution tailored specifically for corporate needs.

Aim:

To establish a standardized One Travel Policy for OneArvind, encompassing an automated travel and settlement tool. Our objective is to provide convenient and safe travel facilities to all eligible travellers while effectively monitoring and controlling travel expenses. Additionally, we strive to enhance the overall travel experience for our employees. This policy is designed to deliver the 3C core services: Comfort, Convenience, and Cost-effectiveness, ensuring that our employees and travellers receive the highest level of service in a cost-efficient manner.

Scope:

- The scope of this policy encompasses all employees of Arvind Limited and its subsidiary companies, collectively referred to as the "Company" within the policy document.
- Furthermore, this policy extends to cover consultants, visitors, and candidates whose travel expenses are borne by the Company.
- It applies specifically to domestic travel exceeding a distance of 300 km. For travel distances less than 300 km, please refer to the Local Conveyance Policy for the applicable guidelines pertaining to travel.
- It's important to note that relocations, deputations, and projects are not included within the scope of this policy. Separate provisions and guidelines will be established for such travel scenarios.

General:

Under this policy, the following general guidelines have been established to ensure comfortable and safe travel in a cost-effective manner:

- **Planning:** Travel should be planned well in advance, allowing for better cost optimization and scheduling.
- **Virtual Meetings:** Whenever possible, virtual meetings should be organized as an alternative to physical travel.
- **Team Size:** The number of individuals travelling in a team should be minimized to reduce expenses.
- **Cost-Effective Locations:** Consider choosing the most cost-effective locations for national and global meetings.
- **Expense Minimization:** Travel plans should be structured in a way that minimizes overall expenses. For example, if flights are prohibitively expensive, consider planning an overnight stay if it results in lower total costs.
- **Cost-Conscious Approach:** Employees are expected to adopt an entrepreneurial mind-set, being cost-conscious and conservative while booking airfare, hotels, and transportation options.
- **Innovative Solutions:** Employees are encouraged to find innovative ways to travel in the most cost-effective manner. They are also encouraged to provide suggestions to management for adopting such practices to save company costs.

It is important to note that this travel policy is designed specifically for business purposes and not for leisure or luxury travel. It is essential to prioritize cost reduction and make judicious decisions while utilizing company funds, particularly considering the increased travel costs post Covid. The use of technology should be maximized as a means of optimizing travel costs, keeping in mind the advancements in artificial intelligence and information technology. However, if travel is unavoidable, employees and associates are expected to exercise a prudent approach during their travel endeavour.

Authorisation for Travel:

Self-Booking/Guest Booking: When an employee is making a travel booking, the request shall flow to their reporting manager in BM grade. However, if the reporting manager is below the BM grade, the request shall automatically be escalated to the skip-level manager in the hierarchy who is at BM grade.

Travel Procedures:

1. Air Travel & Hotel Booking:

- a. All air travel and hotel accommodation requirements must be booked exclusively through myBiz's Self Booking Tool (SBT). Bookings made through any other channels will not be entertained, supported, or reimbursed by Arvind Limited.
- b. **Travel Approval** (Booking for Self or Interview Candidates, Customers, Vendors, Trainers, Suppliers, etc.):
 - i. **Mandatory 7-day advance booking:** Tickets must be booked at least 7 days in advance.
 - ii. **Cheapest corporate fare:** Employees are encouraged to select the most cost-effective corporate fare flight available within the preferred travel time.
 - iii. **Approval from reporting manager:** All air and hotel bookings require approval from the reporting manager (BM grade).
 - iv. **Booking window through SBT:** myBiz will enable the booking option only after receiving approval from the reporting manager.
- c. **Overnight Rail Travel:** For travel to destinations connected by overnight rail, it is essential to use the train as the mode of transportation.
- d. **Monthly MIS:** A monthly MIS report will be shared with respective stakeholders to minimize the need for emergency travel.
- e. **Overnight Stay for Travel Less than 300 km:** If an employee is travelling less than 300 km and requires an overnight stay, the boarding and lodging limits specified in this policy will be applicable.
- f. **Separate Flights for Senior Officials:** It is advised that senior officials travelling to the same destination on the same day take separate flights.
- g. **Reimbursement for Company Guest House Facility:** Employees who avail the Company Guest House facility (Annexure C), will only be reimbursed for conveyance expenses at actuals according to entitlement.

2. Women Employees: In addition to the general travel policies, there are specific policies for women employees:

- a. **Hotel Entitlements:** Women employees up to the M3-H1 grades are eligible for hotel limits of the next higher grade if needed. This ensures that women employees have access to suitable and safe accommodation during their travels.
- b. **Avoidance of Service Apartments/Guest Houses:** Women employees are encouraged to avoid staying in service apartments or guest houses. This measure is implemented to prioritize their safety and well-being, as hotels generally offer enhanced security and a more controlled environment.
- c. **Avoidance of Night Travel:** Women employees are advised to avoid night travel whenever possible. This precautionary guideline is put in place to ensure their safety and minimize potential risks associated with traveling during late hours.

By implementing these women-specific policies, Arvind Limited aims to create a secure and supportive environment for its female employees, promoting their safety and well-being during business travels.

3. Tour Cancellation, No Show and Delayed Flight:

These guidelines aim to provide clarity and accountability in situations related to tour cancellation, no-show, and delayed flights, ensuring that employees are aware of the necessary procedures and their associated responsibilities.

- a. **Cancellation Process:** Employees have the option to cancel their bookings either through the Self Booking Tool (SBT) or by contacting the designated point of contact of myBiz.
- b. **Cancellation Policy:** It is recommended that travel and stay cancellations are made in accordance with the cancellation policy of the respective airlines or hotels. Failure to adhere to the cancellation policy may result in the employee bearing financial responsibility, including non-refundable or cancellation charges imposed by the vendor.
- c. **No-Show Charges:** In the event of a no-show, where an employee misses the scheduled flight, the charges incurred as a result will be the responsibility of the employee and will be recovered from him/her accordingly.
- d. **Delayed Flight:** If an employee's flight is delayed by more than 3 hours from the Estimated Time of Departure (ETD), the employee can cancel or modify the booking through myBiz.

4. Same-day return:

If an employee's travel is scheduled to be completed on the same day as the date of commencement, they are not eligible to avail the accommodation at a guest house or hotel. However, if necessary, the employee can request the use of a guest house or service apartment for the purpose of freshening up

5. Lodging (Hotel Stay) and Boarding (Food Expenses):

- a. The entitlements are defined in Annexure A.
- b. Limits indicated in the annexure are for a 24-hour period.
- c. All entitlements are inclusive of applicable taxes.
- d. In case of spontaneous stay arrangement, employees can use Arvind's statewise GST numbers provided in the Annexure D.

6. Conveyance:

- a. **App-Based Conveyance:** Employees are encouraged to utilize app-based conveyance facilities such as Ola, Uber, BluSmart, or other cost-effective cab services for point-to-point drops, as well as transfers to airports, railway stations, residences, and workplaces. These services are often more convenient and cost-effective compared to hiring full-day cabs.

- b. **Full-Day Cabs:** Full-day cab bookings should be made only in scenarios where an employee does not have a return cab/taxi available from the drop location, or when the employee needs to travel to three or more locations on a given day.
- c. **Cab Booking Details:** Employees should refer to Annexure B for specific details regarding cab bookings. For company-contracted cabs, all bookings should be routed through the business unit admin or travel desk.
- d. **Shared Cabs:** It is advised that multiple employees traveling to the same destination make arrangements to share cabs. This practice promotes cost-efficiency and sustainability.

7. Flat Rate:

Employees who choose to make their own arrangements for boarding and lodging during business travel will be eligible for a flat rate allowance.

- a. **Lodging expenses:** Allowance is equivalent to 30% of the entitlement specified in the travel policy. Employees of BM-H7 and above grade will be eligible for a flat rate of Rs. 6,000 per day.
- b. **Boarding and conveyance expenses:** Reimbursement shall be based on Annexures A & B.

8. Other Expenses:

- a. **Web Check-ins/Express Boarding:** Expenses related to web check-ins or express boarding will not be reimbursed. Employees are responsible for managing these costs themselves if need be.
- b. **Extra Baggage Charges:** If an employee incurs extra baggage charges due to official reasons, reimbursement can be claimed by submitting relevant receipts and obtaining approval as per the company's reimbursement policy.
- c. **Reimbursable Laundry Expenses:** Laundry expenses incurred during travel will be reimbursed on an actual basis if the duration of travel exceeds three days. Employees should retain receipts as supporting documentation for reimbursement.

9. Settlement of Expenses incurred for Domestic Travel:

- a. **Settlement of Expenses:** All travel expenses must be claimed through the integrated expense settlement tool available on the Self Booking Tool (SBT) on One Arvind.
- b. **Timely Settlement:** Employees are requested to complete the travel settlement process for self-spent amounts within 15 days of the trip. Failure to settle within this timeframe will result in auto-settlement on the 16th day, and no reimbursement will be provided under such circumstances.
- c. **Settlement Process:** The settlement process can only be initiated once the employee has returned from the official tour. This settlement should be done through the web-based in-house expense management tool available on One Arvind.
- d. **Original Bills/Invoices:** All expenses incurred by official travellers must be supported by original bills/invoices, such as cab bills, food bills, and other applicable receipts as per the policy. The bills/invoices should clearly mention the details of the expenses, including the date, location, and services availed. Bills/invoices without these details will not be considered valid for reimbursement.
- e. **Guest Entertainment Expenses:** Expenditures related to entertaining guests should be claimed separately as business expenditures, subject to necessary approval.

- f. Special Sanction: Any expenses that exceed the defined entitlements will require special sanction from the Head of the Department who holds a position at the BM-H3 level or above.
- g. Non-Reimbursable Items: The list of Non-Reimbursable items is provided in Annexure B.

10. Attendance and Leave:

These guidelines ensure that employees comply with attendance procedures during official travel and adhere to the necessary protocols for requesting and availing leave. This promotes transparency and accountability in managing attendance and leave during official trips.

- a. Regularizing Attendance: Employees are required to regularize their attendance by applying for “Outdoor Travel” in the Darwinbox system, following the guidelines outlined in the Attendance Policy. This ensures proper tracking and documentation of their presence during official trips.
- b. Leave during Official Trip: In the event that an employee avails leave during an official trip, they will not be eligible for any allowance or reimbursement for the period or day of leave. The employee must apply for leave according to the company’s leave policy in such circumstances.
